

## 3 technological transitions

### 1. Streamers (1886-1980s):

- beginning temporalization, closing system, regime of attention

### 2. Scopes (1980s-)

- transition to screen/ elect. trading
- full temporalization
- informationalization, globality
- referential wholeness

### 3. Algorithms (2000s-)

- Screens remain
- New dimensions of speed and time
- Professional/trading changes
